I'm no stranger to being invited to record podcasts, but my episode of the Johnny Pach show has to be one of my proudest to have been involved in – Johnny certainly encouraged me to reflect and share on experiences and feelings that I don't think I've either contemplated before, and certainly not shared on such a public platform. To be the subject of an hourlong podcast is a daunting prospect (why would anyone want to listen to my story?!), but Johnny created the trust and intimacy which hopefully shows forth in my candid sharing of my philosophy and key moments in my life."
